

Radio Communications

This safety seminar will cover many tips and techniques essential to proper pilot/controller communications. Subject areas covered will include Radio Techniques, Contact Procedures, Call Signs, and Radio Malfunction Procedures. This presentation is based on FAA Pamphlet P-8740-47.

Directions: First classroom on left after entering building. Note - this is a new building that does not yet show on Google maps.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
